The Biggest Saving Event On The Summer Store Calendar Is To Begin

Monday, July 11

With a bold stroke, in accordance with definite policies, we will inaugurate a series of SWEEP-ING_REDUCTIONS on staple and seasonable merchandise throughout the store, and which is urgently needed by every woman in the home.

This annual summer event is always awaited by hundreds, we might say thousands, of thrifty housewives of the Tri-State region because of its intense interest, seasonableness and exceptional low pricings. We believe this event will surpass all other similar ones with its unprecedented reductions and quality merchandise.

Space does not permit giving the hundreds of items that will feature in these sales. Even Ready to Wear Garments for mid-season service are given final Clearance Reductions. Fine sheer, summer materials that you can wear until early Fall and after are scheduled to clear at the season's lowest prices. Even Home Furnishings, Draperies and Rugs are given large reductions to clear out early.

The whole store is determined to make this the most satisfactory clearance we have ever held -- Low Prices for our Patrons, Quick Clearance for us.

We sincerely invite you to participate in these exceptional savings. May we expect you during the week of July 11th?

A new word need to contito describe the oil situation. Normally and sub-normalcy have been thrown into the discard as inadequate. Cuss words are being overworked.

Ma-President Taft has been appoint-al United Justice of the United States ed Chief Justice of the United States Supreme Court to succeed Justice White, who died recently. This is an excellent choice. Taft is a good law-yer and his wide experience will be valuable in the responsible position he is to take. Rates are so high, he contends that their operation will serve as ground to opponents of the protectionist principle to show it to be a screen for monopolics and an effective barrier against European importations, and consequently of world commerce for the United States.

The liquor men of the United States are starting a vigorous campaign for the repeal of prohibition laws. They are working in all possible avenues to create sentiment against dry laws.

The riot of moonshining now sweepthe faith of any man or woman who has voted dry. There are ample laws to stamp out the evil. What we need to do is to demand the enforcement of the laws to the limit. As citizens and We are authorised to announce V. jurors it is up to all to do their part.

The relatively small percentage of the coughbreds and of other classes of pure-bred stock included in the total number of horses in Kentucky, is a general, and not a local, situation, and the other states probably will show even smaller percentages. The same conditions, I am told, prevail with five stock other than horses, though probably not to the same extent as with the latter. The consus report uphoids and justifies the position taken by the American Remount Association that there is the nimost need in this counbry today of increasing the number of bred horses, particularly those of thoroughbred type, on which the Ver Denerment must depend for its cavalry mounts in case of national emergency, and which it met with great difficulty in procuring in suffi

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper -secure foil wrapping-revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember-you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigaretty aftertaste,

It's Camels for you.
